Achievements

Legacy Beyond Curriculum

Achievements 1

AI&DS students secured campus placements at Testware Informatics with ₹3 LPA packages.

Achievements 2

Biomedical Engineering students won national and international awards for innovative research presentations.

Achievements 3

MBA Department achieved 101 student research publications in reputed peer-reviewed journals.

Achievements 4

Mechanical Engineering faculty earned NPTEL Topper 2% and Discipline Star recognitions.

Achievements 5

The Department of Physical Education successfully organized the Women's Basketball Intramural Tournament 2025–26.

Achievements 6

The Department of MBA achieved a milestone of 101 student research publications in reputed national and international peer-reviewed journals.

Department of Artificial Intelligence and Data Science

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, achieved a notable milestone through its NVIDIA Jetson Nano (Edge AI) Project Initiative. During January–March 2026, students developed innovative AI-based

solutions, including HoloGuru – AI-Based Teaching Assistant, Smart Farming, Smart Attendance Monitoring, Project Manager Dashboard, and a Bluetooth-Controlled RC using ESP32. Among these, HoloGuru was selected for the prestigious CMTI Project Initiative, Bengaluru, highlighting the students' technical excellence, innovation, and research-oriented approach.

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, achieved another milestone as the student team comprising S. Sanjay Kumar, M. Sakthivel, S. Annamalai, and G. Vishal secured selection for the Second Round of the Design Innovation Clinic (DIC) 2026, organized by the Central Manufacturing Technology Institute (CMTI), Bengaluru. Their project, HOLO-GURU – AI-Based Teaching Assistant, was shortlisted among the top 35 teams from over 150 entries across Tamil Nadu, Andhra Pradesh, and Karnataka, recognizing their innovation, technical excellence, and research capabilities.

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, proudly congratulates Rajeshwari R and Shahana K (III Year AI&DS) for securing First Prize in the Ideation – Cloud Verse Competition, organized by the Department of Information Technology on 07 April 2026. Their innovative concept, technical excellence, and impactful presentation

demonstrated exceptional creativity and problem-solving skills, bringing laurels to the department and the institution.

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, proudly congratulates Jose Priyadharshini M and Darshana P (III Year AI&DS) for securing Second Prize in the Ideation – Cloud Verse Competition, organized by the Department of Information Technology on 07 April 2026. Their innovative idea, technical proficiency, and effective presentation showcased outstanding creativity and problem-solving skills, adding another achievement to the department's record of excellence.

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, proudly congratulates Rajeshwari R and Jose Priyadharshini M (III Year AI&DS) for securing Second Place with a cash prize of ₹2,000 at the Academic Student Conference Summit – 2026, held on 16 April 2026.

Their outstanding research presentation showcased academic excellence, technical expertise, and effective communication, earning recognition and bringing laurels to the department and the institution.

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, proudly congratulates Roshna A and Yokitha V (II Year AI&DS) for receiving the Best Performance Award at CLOUDZEN26, organized by the Department of

Information Technology on 20 April 2026. Their exceptional technical skills, active participation, and teamwork earned them well-deserved recognition, adding another achievement to the department's record of excellence.

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, proudly congratulates Deepika S and Thanushsri P (II Year AI&DS) for securing First Place in the CLOUDZEN26 – One Day

Hackathon, organized by the CoolCoders Club, Department of Information Technology, on 20 April 2026. Their exceptional technical expertise, innovative problem-solving, and teamwork earned them top honors, reflecting the department's commitment to excellence in innovation and software development.

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, proudly congratulates Roshna A and Yokitha V (II Year AI&DS) for earning the Best Performance Award at CLOUDZEN26,

organized by the Department of Information Technology on 20 April 2026. Their outstanding technical competence, innovative approach, and enthusiastic participation were recognized with this honor, reflecting the department's culture of excellence and commitment to nurturing industry-ready professionals.

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, congratulates Mohamed Fathin N, Dhilipan Raj K, Kabiprathiyush N, Muralimanohar S. V., and Kavivarman A (II Year

AI&DS) for their active participation in the CLOUDZEN26 – One Day Hackathon, organized by the Cool Coders Club, Department of Information Technology, on 20 April 2026. The team received Certificates of Participation in recognition of their commitment, teamwork, and enthusiasm, reflecting the department's emphasis on practical learning, innovation, and continuous skill development.

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, proudly celebrates the international achievement of Roshna Anandamurugan, Anu Boobalan, Ganasri Balamurugan, and Swathi Kumar (II Year AI&DS), whose innovative design, "Ultrasonic Agricultural Field Monitoring Device," received UK Design Registration from the Intellectual Property Office (IPO), United Kingdom (Design No. 6519967), granted on 24 April 2026. This prestigious international recognition highlights the originality of their innovation, research excellence, and contribution to smart agricultural technology, bringing global acclaim to the department and the institution.

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, congratulates S. Rachana and V. Akshaya (IV Year AI&DS) for presenting their research paper, "A Sustainable IoT and Machine Learning-Based Early Warning System for Environmental Safety Monitoring at Waterfall Ecosystems," at the International Conference on Digital Technologies and Smart Engineering Systems (ICDTSES-2026), hosted by the National Institute of Technology Puducherry (NIT Puducherry), Karaikal. Their presentation reflects the department's commitment to impactful research, innovation, and sustainable technology solutions.

NATURAL LANGUAGE QUERYING OF ENVIRONMENTAL DATABASES USING TRANSFORMER MODELS

J. Amutha¹, S. Shalini¹ & E. Abinaya¹

¹Artificial Intelligence and Data Science, E.G.S. Pillay Engineering College
Nagapattinam, Tamil Nadu
abinayazh13006@gmail.com

ABSTRACT

Environmental monitoring systems continuously produce vast amounts of structured data on climate conditions, water resources, and pollution levels at valuable data points. However, this data is often hard to access and use because it requires knowledge of Structured Query Language (SQL). As a result, many environmental scientists, analysts, and policy makers without technical skills encounter barriers when working with these databases. This paper presents a transformer-based Natural Language to SQL (NL2SQL) framework that allows users to query environmental databases using everyday language. The proposed approach uses a pertained transformer model that is fine-tuned for text-to-SQL tasks and specifically tailored for environmental datasets. By converting natural language questions into SQL queries, the system enables users to easily retrieve information from air quality, climate, and pollution data sources. The framework supports advanced query features such as filtering, aggregation, and conditional logic, which are crucial for meaningful environmental analysis. Experimental evaluations indicate that the proposed model achieves higher query accuracy and fewer execution errors compared to traditional rule-based methods. By making it easier to access complex environmental data, this NL2SQL system significantly reduces technical barriers and improves usability. It empowers non-technical users to conduct data-driven analysis, promotes more efficient environmental monitoring, and supports informed decision-making in sustainability and environmental management contexts.

Keywords: Environmental Data Analysis, Generative AI, Environmental Monitoring, Natural Language Processing, NL2SQL, Transformer Models

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, proudly congratulates S. Rachana and V. Akshaya (IV Year AI&DS) for presenting their research paper, "A Sustainable IoT and Machine Learning-Based Early Warning System for Environmental Safety Monitoring at Waterfall Ecosystems," at the International Conference on Digital Technologies and Smart Engineering Systems (ICDTSES-2026) hosted by the National Institute of Technology Puducherry (NIT Puducherry), Karaikal. Their scholarly contribution highlights the department's strong focus on research excellence, innovation, and technology-driven solutions for sustainable development.

Dr. M. Priya, Professor, Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, served as a Resource Person in the 06-Day Virtual Faculty Development Program on "Next-Generation AI: Advanced Concepts and Real-World Deployment," organized by the Department of Computer Science and Engineering from 20–26 April 2026. She delivered an expert session on "Multimodal AI: The Future of Integrated Intelligence," sharing insights into emerging AI

technologies, real-world applications, and current research trends, reflecting the department's academic leadership and expertise in Artificial Intelligence.

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, successfully organized the Academic Student Summit-2026 – CipherLab AI Final Phase Hackathon on 15 April 2026. The five-hour hackathon brought together 41 participants from five engineering institutions to develop innovative AI solutions for real-world challenges. Evaluated by industry expert Mr. R. Thirumurugan, AI Engineer, Wipro, Chennai, the event promoted

innovation, collaboration, and practical problem-solving while providing students with valuable industry exposure and a competitive learning experience.

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, successfully organized a Six-Day Online Faculty Development Programme on "Emerging Trends in Data Science & Agentic AI for Healthcare" from 23–28 March 2026. The programme brought together faculty members, researchers, and

professionals to explore cutting-edge advancements in Data Science, Agentic AI, deep learning, healthcare analytics, and AI-driven medical applications through expert sessions, practical demonstrations, and hands-on learning, fostering academic excellence and industry-oriented knowledge.

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, successfully conducted a Partial Delivery Course on "Machine Learning Techniques" for II Year AI&DS students on 16–17 April 2026 at SJB 203. The programme was led by Mr. R. Thirumurugan, AI Engineer, Wipro, Chennai, who delivered comprehensive sessions on machine learning fundamentals, supervised and unsupervised learning algorithms, model development, feature engineering, evaluation techniques, and real-world industry applications. Through expert lectures, practical demonstrations, and interactive discussions, students gained valuable insights into current AI practices and industry expectations. The programme significantly enhanced their

analytical thinking, technical competencies, and practical understanding of machine learning, equipping them with the skills required to develop intelligent solutions and prepare for future careers in Artificial Intelligence and Data Science.

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, successfully organized a Hands-on AI Workshop on "Graph RAG, Memory & Multimodal Agents" on 09 April 2026 for 60 II Year AI&DS students. The workshop was designed to provide practical exposure to emerging Generative AI technologies, with a focus on Graph Retrieval-Augmented Generation (Graph RAG), AI memory architectures, and multimodal intelligent agents. Through expert guidance, live coding sessions, interactive demonstrations, and hands-on exercises, students explored the development of AI systems capable of processing and

integrating text, images, and contextual memory for intelligent decision-making. The programme enabled participants to understand the latest advancements in Generative AI, strengthen their problem-solving and development skills, and gain valuable industry-oriented experience in building next-generation AI applications.

The Nexora Club, Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, organized "MentorColab – Empowering Students through Guidance & Innovation" on 18 April 2026 via WebEx. The session, led by Ms. S. Pavalambiga, Assistant System Software Engineer, provided valuable insights into career development, industry expectations, and emerging technologies. The interactive programme enhanced students' technical competencies, professional skills, and career readiness while inspiring innovation and continuous learning.

The EDZEN – Edge AI Club, Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, successfully organized "EDGEFORGE - The Edge AI Bootcamp" on 10 April 2026 at SJB-203.

Through live demonstrations, coding sessions, and practical exercises, participants gained valuable experience in designing and implementing intelligent edge solutions. The programme benefited students from AI&DS and other departments by strengthening their technical competencies, enhancing industry-oriented skills, and fostering innovation in next-generation Artificial Intelligence technologies.

The bootcamp offered comprehensive hands-on training in Edge AI, Python-based AI frameworks, embedded intelligence, real-time AI application development, and AI model deployment on edge devices.

The EDZEN – The Edge AI Club of the Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, Nagapattinam, successfully organized an expert talk on "Edge AI Reality Check: Failures, Ethics & Optimization" on 25 April 2026 through WebEx. The session was delivered by Mr. B. Naveen and Mr. S. Sachithanandan, Edge AI Engineers from WG Tech Solutions, Bangalore, who provided valuable insights into the practical challenges, ethical considerations, optimization strategies, and real-world implementation of Edge AI technologies.

platform to demonstrate their creativity and technical expertise through live coding, surprise quiz rounds, idea presentations, prototype development, audience polling, and jury evaluation. Participants presented innovative Edge AI solutions to real-world challenges, strengthening their problem-solving, teamwork, critical thinking, and presentation skills while gaining valuable hands-on experience in designing, developing, and deploying practical Artificial Intelligence applications.

Through engaging discussions and industry-oriented examples, the speakers enhanced students' understanding of Edge AI applications, current industry practices, and emerging technological trends, inspiring them to explore innovative solutions in the field of Artificial Intelligence.

The EDZEN – The Edge AI Club of the Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, Nagapattinam, successfully organized the EDZEN Edge AI Hackathon – Innovate, Build, Deploy on 09 May 2026 in an online mode. The one-day hackathon provided students with an exciting

The II Year students of the Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, actively participated in the IEEE Students Seminar on IEEE Membership and its Benefits, organized by the IEEE Madras Section on 17 May 2026 at Hotel AVS Imperia, Karaikal.

The seminar provided valuable insights into the advantages of IEEE membership, including professional networking, technical activities, leadership opportunities, and career development. The session inspired students to become active members of the global IEEE community while enhancing their technical knowledge, professional competencies, and commitment to continuous learning and innovation.

R. Dinesh, a III Year student of the Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, successfully completed the 10-week "AI in Cyber Security" Virtual Internship conducted by AICTE, Ministry of Education, Government of India, in association with EduSkills Academy, from April to June 2026. The internship offered comprehensive training in Artificial Intelligence, Cyber Security, secure computing, network security, threat detection, vulnerability assessment, and AI-driven security solutions through expert-led sessions, practical assignments, and project-based learning. Throughout the programme, the student gained valuable hands-on experience in applying AI techniques to identify and mitigate cyber threats, enhancing analytical thinking, technical proficiency, and problem-solving abilities.

The successful completion of this internship reflects the student's commitment to continuous learning and professional development while strengthening industry-relevant skills and preparing for emerging career opportunities in Artificial Intelligence and Cyber Security.

S. Anmath Raj, a III Year student of the Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, successfully completed the 10-week Machine Learning & Data Science Internship offered by EduSkills Academy, concluding in June 2026. The internship provided hands-on training in Python, Data Science, Machine Learning, NLP, SQL, Power BI, MLOps, and model deployment through practical projects and real-world applications.

This achievement strengthened the student's technical expertise, analytical skills, and industry readiness, preparing him for emerging career opportunities in Artificial Intelligence and Data Science.

Dr. J. Amutha, Assistant Professor and Head, Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, participated in the IEEE Panel of Conference Organizers (POCO) 2026 organized by the IEEE

Madras Section on 16 May 2026 at Perunthalaivar Kamarajar Institute of Engineering and Technology, Karaikal. The event enhanced her knowledge of conference planning, research collaboration, professional networking, and best practices in organizing international technical conferences.

Rajeshwari R, Shahana K, Jose Priyadharshini M, and Darshana P, III Year students of the Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, actively participated in the National Conference on

AI, Machine Learning and Modern Computing (NCAMMC-2026) organized by LearnXThrive on 20 June 2026. They presented their research paper titled "Pheonaire: Deep Fusion of SAR-Optical Data for Crop Mapping, Stress Detection and Irrigation Advisory," showcasing their research capabilities, innovation, and practical application of Artificial Intelligence and Data Science in smart agriculture.

Dharani S, a III Year AI&DS student of E.G.S. Pillay Engineering College, successfully completed a 10-week DevOps & Cloud Automation Internship at EduSkills Academy (April–June 2026). The internship provided hands-on experience in CI/CD, Docker, Kubernetes, Terraform, Ansible, and cloud automation. The programme concluded with a capstone project on building a scalable microservice, enhancing practical expertise in modern cloud and DevOps technologies.

The programme concluded with a capstone project on building a scalable microservice, strengthening the student's practical skills in cloud technologies, automation, and modern software deployment practices.

Ms. K. Rahapriya and Ms. R. Divyabharathi, Assistant Professors, Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, successfully completed the 12-day Faculty Development Program on "AI & ML Deep Skilling" organized by Sri Eshwar College of Engineering,

Coimbatore, in association with NASSCOM, from 08–20 June 2026. The programme offered comprehensive training in Artificial Intelligence and Machine Learning through expert-led sessions, industry case studies, and hands-on practical exercises.

The FDP enhanced their technical expertise, industry readiness, and understanding of the latest AI and ML technologies. The knowledge and practical experience gained through the programme will support innovative teaching practices, strengthen research activities, and enable them to deliver industry-relevant learning experiences that better prepare students for careers in emerging technologies.

Department of Biomedical Engineering

The Department of Biomedical Engineering proudly celebrates the outstanding achievements of its second-year students at both national and international levels. The students secured Second Prize in the Paper Presentation Competition at the National Level Student Symposium conducted by Arjun College of Engineering, Coimbatore, and also won the Best Oral Presentation Award at ICRIET-2026, SINCET, Nagapattinam, for their innovative research on DG CNTFET. These achievements reflect the department's commitment to academic excellence, research, and innovation.

The Department of Biomedical Engineering, E.G.S. Pillay Engineering College, successfully organized Bio-Fusion 2K26 – Academic Student Conference on 20 April 2026 with the theme "Inspiring the Future of Healthcare." The conference featured an expert session by Dr. D. Kathirvelu and innovative student project presentations, providing a platform for knowledge sharing, research, and innovation in biomedical engineering. The event concluded with the recognition of outstanding student projects, encouraging excellence in healthcare technology and engineering.

The Department of Biomedical Engineering, E.G.S. Pillay Engineering College, proudly congratulates Ms. Vishali S. for presenting her research poster at the International Conference on AIxLife 2026: Advances in Computational Biology Across Scales for Life & Health Sciences, hosted by SASTRA Deemed University, Thanjavur, on 17–18 April 2026. Her research, titled "Optimization Deep Learning Framework for Imbalanced Melanoma Classification Using Transfer Learning and Threshold Optimization," showcased the application of advanced Artificial Intelligence techniques for improving melanoma detection in healthcare. This achievement reflects the department's commitment to promoting research excellence, innovation, and the integration of AI-driven technologies to address real-world biomedical challenges.

The Med Tech Marvel Club of the Department of Biomedical Engineering, E.G.S. Pillay Engineering College, successfully organized Innovation Showcase 2026 on 17 April 2026 under the theme "Ideas Today. Impact Tomorrow." The event provided a vibrant platform for students to present innovative biomedical engineering projects and explore emerging healthcare technologies through

creative exhibits and technical presentations. The showcase concluded with the recognition of outstanding innovations through cash prizes, encouraging students to strengthen their research, creativity, and problem-solving skills while fostering a culture of innovation and collaboration in healthcare technology.

The Department of Biomedical Engineering, E.G.S. Pillay Engineering College, proudly congratulates Dr. Venkatesan R., Associate Professor, on receiving the Excellence in Student Mentorship Award at the Engineering Faculty Awards 2026 on 17 May 2026. Presented jointly by the Dr. J. Ramachandran Maritime Foundation and AMET University, Chennai, the award recognizes his exceptional mentorship, dedication to student success, and outstanding contribution to academic excellence and professional development.

The Department of Biomedical Engineering, E.G.S. Pillay Engineering College, proudly congratulates Mr. Mohamed Harees M and Ms. Surya Prabha R. for publishing a research chapter in an international edited book under the guidance of Dr. R. Venkatesan. This achievement showcases the department's strong commitment to research, innovation, and academic excellence.

The Department of Biomedical Engineering, E.G.S. Pillay Engineering College, proudly congratulates Dr. R. Venkatesan, Associate Professor, and Ms. N. Ragavi, BME graduate, on publishing their research paper, "Application of CNT Nanotechnology to Explore Ultra-Thin Devices with Flexible Transistors," in the prestigious international journal *Microsystem Technologies* (Springer Nature). The publication highlights innovative research in carbon nanotube-based flexible electronics and reflects the department's commitment to high-quality research and technological advancement.

The Department of Biomedical Engineering, E.G.S. Pillay Engineering College, proudly announces the institution's recognition as an Institutional Member of the Indian Biomedical Skill Consortium (IBSC) Society on 01 April 2026. This prestigious membership strengthens the college's commitment to excellence in biomedical education, research, skill development, and industry collaboration, creating enhanced opportunities for students and faculty through training, certifications, research initiatives, and professional partnerships.

The HUB CIVILAX Club of the Department of Civil Engineering, E.G.S. Pillay Engineering College, organized "Brainwave: Build the Brainstorming Session" on 22 April 2026. The seminar, led by Mr. J. Samson Ebinazer, Assistant Professor, Department of EEE, enhanced students' creative thinking, problem-solving, and

analytical skills through interactive discussions and brainstorming activities. Around 80 students benefited from the session, which promoted innovation, teamwork, and practical approaches to solving real-world engineering challenges.

Department of Civil Engineering

The HUB CIVILAX Club of the Department of Civil Engineering, E.G.S. Pillay Engineering College, organized the seminar "BuildSmart: Fundamentals of Construction & Site Practices" on 28 April 2026. The session, delivered by Er. V. Srinivasan, Lecturer, E.G.S. Polytechnic College, provided practical insights into construction materials, site practices, safety

measures, and quality control. The programme bridged the gap between classroom learning and industry requirements, benefiting 47 students by enhancing their practical knowledge and professional skills in civil engineering.

Achievers Day 2026 was celebrated to honour students for their outstanding achievements in academics, leadership, innovation, internships, sports, research, technical competitions, and community service. Students, student leaders, and the Best Club were recognised with certificates and trophies for their excellence and contributions. The event celebrated talent, dedication, and perseverance while inspiring students to pursue excellence in academic and co-curricular activities.

The Department of Civil Engineering has achieved significant research milestones through the publication of seven research papers in various peer-reviewed journals indexed in Google Scholar. The publications cover innovative and emerging areas such as geopolymers, permeable concrete, recycled aggregates, plastic roads, self-healing concrete, aquaculture waste treatment, phase change materials in

buildings, and IoT-based bridge monitoring systems. These research contributions demonstrate the department's commitment to innovation, sustainable engineering practices, smart infrastructure, and advanced research in Civil Engineering.

Department of Computer Science and Business Systems

The Biz-Nova Club successfully organized CLASHIX'26, a startup-focused technology competition conducted in two phases on 7 and 9 April 2026. The event guided students through idea development, prototype demonstration, and final pitching, enhancing their creativity, entrepreneurial mindset, technical implementation, business strategy, and communication skills. Participants gained valuable hands-on experience in transforming innovative ideas into practical solutions and presenting compelling technical and business value propositions.

The Biz-Nova Club, Department of CSE & Business Systems, organized "Journey Towards Academic Excellence" on 29 April 2026 to guide students towards consistent academic achievement and holistic development. The session, led by Mrs. L. Lalitha Kamalam, focused on goal setting, academic planning, effective study techniques, time management, communication, confidence building, and personal development. The programme also enhanced students' awareness of career opportunities and higher education pathways, motivating them to pursue continuous academic and professional growth.

The Technovertz Club organized the webinar "From Clicks to Code: Journey into Salesforce Development" on 12 April 2026 via Webex Cisco. The session introduced students to Salesforce and Customer Relationship Management (CRM) concepts, covering both declarative and programmatic development approaches. Through insights into real-world industry applications and career pathways, participants gained a clear understanding of Salesforce tools, CRM implementation, and the skills required to pursue careers as Salesforce developers.

The Technovertz Club successfully organized a 3-Day Virtual Student Development Programme on Artificial Intelligence from 25–27 April 2026 via Webex Cisco. The programme provided students with comprehensive exposure to Generative AI, Edge AI, and the Software Development Life Cycle (SDLC), covering fundamental concepts, emerging tools, real-time applications, and system-design approaches. The sessions enhanced participants' understanding of AI technologies, strengthened their problem-solving abilities, and enabled them to design innovative AI-based solutions.

The Department of CSE & Business Systems successfully organized PitchCraft 360 – Academic Student Summit 2026, a multi-round innovation competition conducted during April 2026. The event developed students' skills in UI/UX design, problem-solving, website development, and business pitching through three stages: AdSpark, SolVision, and the final Vionex: Innovation Bootcamp. Shortlisted teams designed and developed innovative solutions within a five-hour challenge and presented their ideas before a jury. The competition provided valuable exposure to creativity, technology, teamwork, and

entrepreneurial thinking, with students from Arifa Institute of Technology and ADM College for Women securing the top three positions.

The Technovertz Club organized a workshop on "Exploring Self-Supervised Learning in AI" on 4 May 2026 at CC4 Lab. The programme introduced students to the principles and applications of self-supervised learning, focusing on how AI models learn meaningful patterns from unstructured data without explicit supervision. Through discussions on Natural Language Processing, Computer Vision, and Recommendation Systems, participants gained foundational knowledge of this emerging technology and explored current trends and career opportunities in Artificial Intelligence.

The Biz-Nova Club organized "Transforming Ambitions into Achievable Career Pathways" on 2 May 2026 through an online session. The programme provided students with valuable insights into Human Resource Management, industry expectations, and diverse career opportunities in the HR domain. The session enhanced participants' understanding of HR functions, helped them identify realistic professional pathways, and strengthened their confidence to pursue successful careers in Human Resource Management.

The Department of Computer Science and Business Systems successfully organized a Six-Day Online Faculty Development Programme on "AI for Research, Ethics and Education" from 27 April to 04 May 2026. The FDP explored AI ecosystems, data-driven research, Generative AI applications, research integrity, ethical AI, data privacy, personalized learning, academic analytics, and AI-driven educational tools. Through expert-led sessions and hands-on learning,

DAY	SESSION	TOPICS/SPEAKER
01 27.04.2026	1	Dr.S.PRAVEENKUMAR, ASP & HEAD / CSBS, EGSPEC Topic: INTRODUCTION TO ARTIFICIAL INTELLIGENCE AND ITS ECOSYSTEMS
	2	Dr.P.KUMARAN, AP / CSE - VET. KARANJAL Topic: AI TECHNOLOGIES FOR DATA-DRIVEN RESEARCH
02 28.04.2026	1	Dr.G.KUMARAVELAN, ASP & HEAD / CSE, KONDICHERY Topic: RESEARCH INTEGRITY IN THE AGE OF GENERATIVE AI
	2	Dr.T.MANKANDAN, PROFESSOR / CSBS, RAJALAKSHMI Topic: ETHICAL FRAMEWORKS AND RESPONSIBILITY IN PERSONALS
03 29.04.2026	1	Dr.N.DANAPAGUAME, PROFESSOR / CSBS, RAJALAKSHMI Topic: GENERATIVE AI IN PRACTICE: FUTURE EDUCATION, TON & BAO
	2	Dr.M.GANESH RAJA, CHIEF Topic: DESIGNING ETHICAL AI CURRICULUM IN HIGHER EDUCATION
04 30.04.2026	1	Dr.P.R. JOE DHANITH, AP / SCOPES DEPARTMENT, Topic: AI FOR PERSONALIZED AND INCLUSIVE
	2	Dr.K.VELMURUGAN, PROFESSOR / CSBS, RAJALAKSHMI Topic: AI FOR ASSESSMENT AND ACADEMIC ANALYTICS
05 02.05.2026	1	Mr. M. VIGNESH, CHIEF Topic: HIGHER EDUCATION IN THE DIGITAL AGE: CHALLENGES AND OPPORTUNITIES
	2	Dr.AUXILIA MICHAEL, PROFESSOR / CSBS, RAJALAKSHMI Topic: AI TOOLS FOR ACADEMIC PRODUCTIVITY AND RESEARCH
06 04.05.2026	1	Dr.S.PALANIMURUGAN, ASP & ACADEMIC DIRECTOR / RAJALAKSHMI Topic: FUTURE DIRECTIONS, CHALLENGES AND INSTITUTIONAL IN RESEARCH
	2	Dr.R.RENGARAJ @ MURALIDHARAN, CHIEF Topic: DATA PRIVACY, BIAS AND ACCOUNTABILITY IN AI RESEARCH

participants gained valuable insights into the responsible integration of AI in teaching, learning, and academic research, while developing awareness of fairness, transparency, accountability, and future institutional AI strategies.

During June 2026, faculty members of E.G.S. Pillay Engineering College actively participated in the Five-Day Faculty Development Programme on "Emerging Trends in Science and Engineering (ETSE-2026)", held from 15–19 June 2026 at the Regional College for Education Research and Technology (RCERT), Jaipur. The programme provided valuable exposure to emerging

developments across diverse fields of Science and Engineering, promoting continuous professional learning, interdisciplinary knowledge exchange, and academic excellence among participating faculty members.

Two faculty members from the Department of Computer Science and Business Systems (CSE&BS), E.G.S. Pillay Engineering College, successfully completed the Six-Day Faculty Development Programme on "Generative AI, Intelligent Systems and AI Entrepreneurship" held from 15–20 June 2026 at Aalim Muhammed Salegh College of Engineering, Avadi, Chennai. The programme provided comprehensive exposure to Generative AI, intelligent systems, and AI entrepreneurship, enhancing the

faculty members' knowledge of emerging technologies and their applications in teaching, research, and innovation.

The Department of Computer Science and Engineering, through the Programmers Paradise Club, organized a Partial Delivery Program on Object-Oriented Programming in Java on 6–7 April 2026. The session was delivered by Mr. Velliraj Ayyanar, Project Director, GM Tek, Chennai, who provided valuable industry-oriented insights into Java programming and application development. The programme focused on Java Applet architecture and lifecycle, GUI development, and the use of AWT and Swing frameworks for creating interactive applications. Through practical demonstrations and expert guidance, students strengthened their understanding of object-oriented programming principles, coding practices, and real-world software development, enhancing their technical competencies and career readiness.

The Department of Computer Science and Engineering (CSE), in association with the Institution's Innovation Council (IIC) and Computer Society of India (CSI), organized a Guest Lecture titled "AI Unleashed: The Next Wave of Intelligent Tools" on 06 April 2026. The session was delivered by Dr. S. Sridharan, Assistant Professor (SLG), University College of Engineering, Thirukkuvalai, who shared valuable insights into emerging Artificial Intelligence technologies, machine learning applications, and intelligent digital tools. The informative session inspired students to explore AI-driven solutions, enhance their technical skills, and embrace innovation in research, learning, and future career opportunities.

Department of Computer Science and Engineering

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING		
06 DAYS ONLINE FACULTY DEVELOPMENT PROGRAM ON		
'NEXT - GENERATION AI: ADVANCED CONCEPTS AND REAL		
WORLD DEPLOYMENT"		
DATE : 20.04.2026 to 26.04.2026		
SESSION: 1 (05.30 PM TO 07.00 PM) SESSION: 2 (07.15PM TO 08.45PM)		
DAY	SESSION	TOPICS/SPEAKER
01 20.04.2026	1	Dr. G. N. BALAJI, ASP / CSE - VIT,VELLORE Topic: AI TOOLS FOR ACADEMIC RESEARCH.
	2	Dr. J. I SHEEBA, ASP / CSE - PUDUCHERRY TECHNOLOGICAL UNIVERSITY Topic: REVOLUTIONIZING HUMAN DEVELOPMENT: THE ROLE OF AI IN HEALTHCARE & EDUCATION
02 21.04.2026	1	Mr. S. SUNDHAR, TEAM LEAD Topic: AGENTIC AI USE CASES IN INDUSTRY.
	2	Dr. S. SRIDHARAN, AP / CSE, UNIVERSITY COLLEGE OF ENGINEERING, THIRUKKUVALAR Topic: AI UNLEASHED :THE NEXT WAVE OF INTELLIGENCE TOOLS.
03 22.04.2026	1	Dr. J. KAVITHA, ASP / COMPUTER AIDED DESIGN, VEL TECH RANGARAJAN ENGINEERING, THIRUKKUVALAR Topic: GENERATIVE AI IN PRACTICE: FEATURE EXTRACTION & RAG.
	2	Dr. P. SHANTHI, PROFESSOR & HOD OF AISE, VEL TECH RANGARAJAN ENGINEERING, THIRUKKUVALAR Topic: APPLICATIONS OF AI IN THE MODERN ERA.
04 23.04.2026	1	Dr. M. PRIYA, PROFESSOR / AI&DS - EGSPEC Topic: MULTIMODAL AI: THE FUTURE OF INTEGRATED INTELLIGENCE.
	2	Dr. M. MISBA, ASP / COMPUTER AIDED DESIGN, VEL TECH RANGARAJAN ENGINEERING, THIRUKKUVALAR Topic: SMART NLP SYSTEMS FOR REAL-TIME APPLICATIONS:FROM TEXT TO AI INTELLIGENCE.
05 24.04.2026	1	Mr. TANVEER ALAM, PROJECT COORDINATOR,OILFIELDS SUPPLY CENTER-UAE Topic: INTELLIGENT SYSTEMS AND AI-DRIVEN DECISION MAKING.
	2	Dr. S. MANIKANDAN, PROFESSOR / CSE - EGSPEC Topic: AI AND INNOVATION SPRINTS-RAPID PROTOTYPING FOR DIGITAL TRANSFORMATION.
06 25.04.2026	1	Dr. S.RAVICHANDRAN, PROFESSOR, KINGS ENGINEERING COLLEGE-CHENNAI Topic: AI FOR SUSTAINABLE DEVELOPMENT: INNOVATIONS AND FUTURE

The Department of Computer Science and Engineering (CSE) successfully organized a Six-Day Online Faculty Development Programme on “Next-Generation AI: Advanced Concepts and Real-World Deployment” from 20–26 April 2026. The programme brought together faculty members, researchers, and professionals for expert-led sessions on Machine Learning, Generative AI, Agentic AI, Multimodal AI, Natural Language Processing, Explainable AI, AI-driven decision-making, and AI for Sustainable Development. The FDP provided valuable insights into emerging research advancements and real-world AI deployment strategies across academia, industry, healthcare, and sustainability. Through interactive discussions and knowledge sharing, participants enhanced their professional competencies and gained a deeper understanding of the rapidly evolving landscape of Artificial Intelligence.

The Department of Computer Science and Engineering (CSE), E.G.S. Pillay Engineering College, organized a specialized workshop on “Generative AI: Concepts, Tools, and Applications” on 06 April 2026 through the Programmers Paradise Club. The workshop aimed to bridge the gap between academic learning and industry requirements by introducing students to the fundamentals, tools, and real-world applications of Generative Artificial Intelligence. Through expert guidance and practical exposure, participants explored how Generative AI creates innovative content such as text, images, software code, and other digital outputs using advanced techniques including deep learning and neural networks. The session highlighted the applications of Large Language Models and other emerging AI technologies in software engineering, design, automation, and digital content creation. The programme enhanced students’ understanding of modern AI tools and encouraged them to explore innovative solutions, preparing them for the rapidly evolving technological landscape.

The Department of Computer Science and Engineering (CSE), through the Programmers Paradise Club, organized “CloudSprint: AWS Cloud Practitioner Project Challenge” on 18 April 2026. The event provided students with hands-on exposure to AWS cloud services, enabling them to apply theoretical concepts to real-world projects, enhance their problem-solving skills, and develop practical expertise in cloud architecture and deployment. Through this initiative, students strengthened their technical competencies and gained valuable industry-oriented experience in cloud computing.

The Department of Computer Science and Engineering, E.G.S. Pillay Engineering College, organized a guest lecture titled “Know Your Rights, Own Your Voice” on 28 April 2026 for first-year female students. Aligned with SDG 5 and SDG 16, the programme featured JFD. K. Kalaiselvi Babitha, Zone

The Department of Computer Science and Engineering, E.G.S. Pillay Engineering College, organized a guest lecture titled “Know Your Rights, Own Your Voice” on 28 April 2026 for first-year female students. Aligned with SDG 5 and SDG 16, the programme featured Jc. A. Srinidhi, National Trainer, Kumbakonam, who created awareness about fundamental rights, legal awareness, and self-advocacy. The session empowered students to confidently understand their rights, raise their voices, and navigate societal challenges responsibly.

Director – Lady Jaycee, JCI Karaikal, who provided valuable insights into fundamental rights, legal awareness, and self-advocacy. The session empowered students to build confidence, understand their

rights, and express their voices effectively in a supportive academic environment.

Department of Electronics and Communication Engineering

Faculty members of the Department of Computer Science and Engineering successfully participated in the intensive “AI&ML Deep Skilling” Faculty Development Programme hosted by Sri Eshwar College of Engineering in collaboration with NASSCOM. Focused on “Upskilling Educators for the AI Era,” the two-week programme enhanced faculty expertise in advanced AI and Machine Learning tools, frameworks, and teaching methodologies. The initiative strengthened the department’s commitment to industry-aligned education and enabled faculty members to deliver more relevant, rigorous, and future-ready learning experiences to students.

Students Akash A, Akash P, Hemachandran R. R., and Keerthivasan R. from the Department of Electronics and Communication Engineering (ECE) actively participated in the Hackathon – Design and Innovation Clinic 2026 held on 16 April 2026. The event provided a valuable platform for students to showcase their innovative ideas, technical expertise, creativity, and problem-solving abilities while addressing real-world engineering challenges.

Mrs. M. Kavitha, Assistant Professor, Department of Electronics and Communication Engineering (ECE), presented her research paper titled “IoT-Based Monitoring System for High-Level Ammonia Detection in Poultry Farms” at the International Conference on Explainable AI, Green Edge Computing and Autonomous Systems (ICXGA-2026) held at Dhanalakshmi Srinivasan Engineering College on 10 April 2026. The research proposed a smart IoT-based system for real-time ammonia monitoring and early hazard detection, contributing to improved poultry health, worker safety, sustainable farming, and intelligent agricultural management.

The Department of Electronics and Communication Engineering organized a Partial Course Delivery on Wireless Communication on 07–08 April 2026 as part of its industry–academia collaboration initiative. Dr. Prabhu Chander, Chandhar Research Lab, delivered expert sessions on modern wireless communication technologies, industry trends, and real-world applications. The programme bridged theoretical learning with practical insights and enhanced students’ understanding of current advancements in wireless communication.

Abinaya K from the Department of Electronics and Communication Engineering (ECE) participated in the five-day workshop on “EDA Tools for VLSI Design” organized by Thiagarajar College of Engineering, Madurai, from 04 to 08 May 2026. The workshop provided hands-on exposure to industry-relevant EDA tools, digital IC design, HDL-based design, simulation, synthesis, timing analysis, and layout concepts, strengthening her practical skills in VLSI design and verification.

Dr. C. Mathuvanesan and Dr. M. Nuthal Srinivasan from the Department of Electronics and Communication Engineering (ECE) successfully earned Industry Certified Faculty recognition through the Embedded Software Deep Skilling Programme (Phase I) conducted by NASSCOM–Cranes Varsity, demonstrating their commitment to continuous professional development and industry-oriented excellence. The department

also organized a Guest Lecture Webinar on “Electromagnetic Simulation of Antenna Structures Using HFSS” on 01 May 2026, featuring Dr. S. Rajasri, Pondicherry University. The session provided valuable insights into antenna design, electromagnetic simulation, optimization, and RF engineering applications.

The Department of Electronics and Communication Engineering proudly congratulates Ms. V. Abinaya, Ms. P. Anbarasi, Ms. K. Arthi, and Ms. K. Bavisha for successfully securing UK Design Registration for their innovative project, “Women Safety

Vest with Alarm Belt.” This achievement reflects the students’ creativity, technical innovation, and commitment to developing smart solutions for women’s safety, earning international recognition for their innovative design.

The Department of Electrical and Electronics Engineering (EEE) successfully conducted a two-day Energy Audit Consultancy for Aravind Ceramics Pvt. Ltd., Thanjavur, in association with SVV Engineering, Madurai, on 7–8 April 2026.

The consultancy, carried out by the department faculty, highlights EEE's commitment to industry collaboration, sustainable energy practices, and professional consultancy services.

The Department of Electrical and Electronics Engineering (EEE) conducted a Skill Development Course on 17 April 2026 for III Year EEE students in the Simulation Lab. Students performed an IoT-based activity using the ESP32 microcontroller and uploaded

sensor data to the ThingSpeak cloud platform, gaining hands-on experience in sensor interfacing, real-time data acquisition, and cloud integration.

The Department of Electrical and Electronics Engineering (EEE) organized a Partial Delivery Course on Embedded Systems on 21–22 April 2026. Conducted by Mr. Pratheep, M.E., CADD Technologies School of Design Pvt. Ltd., Coimbatore, the programme

provided III Year EEE students with hands-on training in embedded systems, programming concepts, and real-time applications, enhancing their technical and problem-solving skills.

Department of Electrical and Electronics Engineering

The Department of Electrical and Electronics Engineering (EEE) proudly congratulates Dr. T. Suresh Padmanabhan, Professor, on the publication of his research article, "Cascaded Multi-Level Inverter with Asymmetrical Voltage Sources Using Multicarrier PWM Strategies," in Technical Gazette (April 2026). This achievement reflects his valuable contribution to power electronics research and the department's commitment to academic excellence and innovation.

The Department of Information Technology proudly congratulates Jeevitha Prabakaran on successfully completing the "Generative AI for Beginners" course offered through Simplilearn SkillUp on 24 April 2026.

The course provided foundational knowledge of Generative AI concepts, applications, and emerging technologies, reflecting a strong commitment to continuous learning and AI upskilling.

The Department of Electrical and Electronics Engineering (EEE) proudly congratulates Mrs. M. Porkodi and Mrs. S. Latha, Assistant Professors, on successfully completing the Six-Day Faculty Development Programme on "Interdisciplinary Approaches to Emerging Technologies for Sustainable Development", organized by Aalim Muhammed Salegh College of Engineering, Chennai, from 15–20 June 2026. The programme enhanced their knowledge of emerging technologies and sustainable interdisciplinary practices, reflecting the department's commitment to continuous professional development.

Department of Information Technology

The Department of Information Technology proudly congratulates Jeevitha Prabakaran on successfully completing the "Gemini for Google Workspace" course, powered by Google Cloud and Simplilearn SkillUp, on 30 March 2026. The programme enhanced practical skills in using Gemini AI to improve productivity, collaboration, and workflow efficiency, reflecting a commitment to continuous learning in emerging AI technologies.

The Department of Information Technology proudly congratulates Jeevitha Prabakaran on successfully completing the Data Science & Analytics course offered by HP LIFE and the HP Foundation on 13 May 2026. The programme provided foundational knowledge of data science concepts, analytics tools, and data-driven decision-making, strengthening essential skills for a career in data analytics.

The Department of Information Technology proudly congratulates Abinayaharini R on successfully completing the Statistics Onramp course on 4 May 2026. The programme strengthened foundational knowledge of statistical concepts and data analysis, enhancing analytical skills essential for data science, machine learning, and informed decision-making.

Department of Mechanical Engineering

The Department of Mechanical Engineering proudly congratulates Dr. V. Sivaramakrishnan on the publication of his research article, "Mechanical Performance Enhancement of EPDM/SBR-Based Composites Reinforced with Functionalized MWCNTs," in the Journal of Polymer Research (Springer), Volume 33, 2026. The research contributes to advancements in polymer nanocomposite

technology by enhancing the mechanical properties of EPDM/SBR rubber composites through functionalized carbon nanotubes.

The Department of Mechanical Engineering, in association with IQAC, organized a seminar on "Placement Opportunities for Mechanical Engineers" on 27 April 2026 for first-year Mechanical Engineering students. The session, led by Mr. I. Arul Prakash, Placement Officer, E.G.S. Pillay Engineering College, provided valuable insights into career prospects, industry expectations, essential technical and employability skills, and effective placement preparation strategies. The programme motivated students to enhance their professional competencies and prepare confidently for successful careers in the mechanical engineering industry.

The Department of Mechanical Engineering proudly congratulates Mr. Niyasdeen N., II Year Mechanical Engineering, for securing Second Prize at ZYNTHIC'26 along with the II Year CSE team for their innovative project, "Solar Panel Cleaner Mechanism." Organized by the Department of Computer Science & Engineering in association with BYTS India Pvt. Ltd. on 15 April 2026, the event recognized the team with a cash prize of ₹2,000. This achievement reflects the students' innovation, interdisciplinary collaboration, and commitment to developing practical engineering solutions for real-world challenges.

EGS PILLAY ENGINEERING COLLEGE
AUTONOMOUS - NAGAPATTINAM

DEPARTMENT OF MECHANICAL ENGINEERING

3 DAY ONLINE SHORT-TERM TRAINING PROGRAM (STTP) ON
RECENT ADVANCES IN ADVANCED FUNCTIONAL MATERIALS: FROM FUNDAMENTALS TO INDUSTRIAL APPLICATIONS

27.04.2026 to 29.04.2026

SESSION TIMING:
Session 1: 06:15 PM to 07:15 PM
Session 2: 07:30 PM to 08:30 PM

DETAILS OF RESOURCE PERSONS

DAY / DATE	SESSION 1 06:15 PM to 07:15 PM	SESSION 2 07:30 PM to 08:30 PM
DAY 1 27.04.2026	Dr. P. Vivek Senior Lecturer, Applied Energy Storage Solutions, Rangapalayam Agri-Indo, Rangapalayam - 605022 Tamil Nadu, India. Topic: POWERING THE PLANET: CAN BATTERIES SAVE OUR PLANET?	Dr. V. Rameshbabu Associate Professor, Department of Mechanical Engineering, I.O.S. Pillay Engineering College, Nagapattinam - 605022, Tamil Nadu, India. Topic: IMPACT OF NANOTECHNOLOGY ON MECHANICAL, PHYSIOLOGICAL, AND ENVIRONMENTAL RESEARCH OF POLYMER COMPOSITES AND THEIR RECENT ADVANCES
DAY 2 28.04.2026	Dr. U. Sreyasree Associate Professor, Department of Mechanical Engineering, Chemical Institute of Technology, Chennai - 600029 Tamil Nadu, India. Topic: DEVELOPMENT AND CHARACTERIZATION OF AN ORGANO-IONIC COMPOSITE FOR POLYMER ELECTROLYTE	Dr. S. Rajiv Assistant Professor, Department of Mechanical Engineering, I.O.S. Pillay Engineering College, Nagapattinam - 605022, Tamil Nadu, India. Topic: DEVELOPMENT OF CARBON-BASED POLYMER COMPOSITES FOR COMPOSITE COATINGS
DAY 3 29.04.2026	Dr. S. Sujatha Assistant Professor, Department of Chemical Engineering, Dr. Jeyapal College of Engineering, Chennai - 600095 Tamil Nadu, India. Topic: NANOMATERIALS IN MECHANICAL ENGINEERING	Dr. G. Sundara Vasudevi Associate Professor, Department of Mechanical Engineering, I.O.S. Pillay Engineering College, Nagapattinam - 605022, Tamil Nadu, India. Topic: PROGRESS IN ADVANCED FUNCTIONAL MATERIALS FROM NANOTECHNOLOGY TO INDUSTRIAL APPLICATIONS

ABOUT THE PROGRAM:
This Short-Term Training Program (STTP) focuses on recent advancements in advanced functional materials, covering mechanical properties, nanotechnology applications, and their role in bridging the gap between research, development, and commercialization. It includes topics like nanomaterials, nanotechnology, energy materials, integrated development, and surface engineering.

REGISTRATION DETAILS:
Mode: Online
Registration Fee: NIL For Participant
Last Date: 18.04.2026

QR CODE:
Registration Link: <https://shorturl.at/r2pVF>

COORDINATOR: Dr. A. ARUNKUMAR
CO-COORDINATOR: Dr. S. RAJIV
CONVENOR: Dr. N. RAMANUJAM

The Department of Mechanical Engineering organized a three-day Online Short-Term Training Programme (STTP) on "Recent Advances in Advanced Functional Materials: From Fundamentals to Industrial Applications" from 27–29 April 2026. The programme featured expert sessions on advanced functional materials, nanotechnology, energy storage, composites, and surface

engineering, providing participants with valuable insights into emerging research and industrial applications in materials engineering.

The Department of Mechanical Engineering, in association with IQAC, organized a seminar on "Placement Opportunities for Mechanical Engineers" on 27 April 2026. The session, delivered by Mr. I. Arul Prakash, Placement Officer, provided first-year Mechanical Engineering students with valuable insights into career opportunities,

industry expectations, employability skills, and placement preparation strategies, helping them build a strong foundation for successful professional careers.

The Department of Mechanical Engineering, in association with the Entrepreneurship Development Cell (EDC) and Institution's Innovation Council (IIC), organized a webinar on "Entrepreneurship Awareness: Unlock the Entrepreneur Within You" on 30 April 2026. The session was delivered by Dr. J. Merrylin, EDII Master Trainer and Assistant Professor, Sadakathullah Appa College (Autonomous), Tirunelveli, who shared valuable insights into entrepreneurship, innovation, startup ecosystems, and the opportunities available for aspiring entrepreneurs. The webinar encouraged students to develop an entrepreneurial mindset, identify innovative business ideas, and understand the importance of leadership, creativity, and risk-taking in building successful ventures, thereby inspiring them to consider entrepreneurship as a promising career path.

The Head of the Department, Mechanical Engineering, participated in POCO–2026 (Panel of Conference Organizers), organized by the IEEE Madras Section on 16 May 2026 at PKIET, Karaikal. The programme provided valuable

insights into IEEE conference planning, ethical practices, quality standards, paper review processes, and conference management, strengthening the department's commitment to organizing high-quality academic and research events.

The Department of Mechanical Engineering proudly congratulates Dr. S. Rajiv, Assistant Professor, on receiving the Community & Social Engagement Award at the Engineering Faculty Awards 2026, organized by Dr. J. Ramachandran Maritime Foundation and AMET University, Chennai. The award recognizes his outstanding contributions to community development, social outreach, and engineering education, reflecting the department's commitment to societal impact and academic excellence.

Students from the Department of Mechanical Engineering actively participated in the IEEE Madras Section Students Seminar on IEEE Membership and Its Benefits held on 17 May 2026 at Hotel AVS Imperia, Karaikal. The seminar highlighted the advantages of IEEE membership, including professional networking, technical societies, leadership opportunities, and career development, inspiring students to engage in global professional and technical communities.

The Department of Mechanical Engineering proudly congratulates Dr. G. Sundaravadivel and Dr. S. Rajiv, Assistant Professors, on the publication of their research article, "Dispersion-driven Interphase Engineering and Quantitative Stress Transfer in Chemically Inert PTFE/MWCNT Nanocomposites," in Physical Chemistry Chemical Physics (PCCP), a prestigious international journal published by the Royal Society of Chemistry (RSC), on 18 May 2026.

This achievement highlights the department's commitment to high-quality research and innovation in advanced materials engineering.

The Department of Mechanical Engineering organized a Partial Delivery of Course Sessions on Manufacturing Technology–II (CNC Machines) on 26–27 May 2026 for II Year Mechanical Engineering students. The sessions, delivered by Mr. V.G. Vigneshvaran, Proprietor, V.G. Vetri Steel Fabs & Engineering, provided practical exposure to CNC machines and

modern manufacturing practices. The programme enhanced students' industry-oriented knowledge and strengthened the connection between classroom learning and real-world manufacturing applications.

Dr. A. Arunkumar, Associate Professor, Department of Mechanical Engineering, published his research article on advanced CNT-based composite materials in the prestigious SCI-indexed Bulletin of Materials Science (Indian Academy of Sciences–Springer Nature). This achievement reflects the institution's commitment to research excellence and innovation in engineering.

Dr. A. Arunkumar, Associate Professor, Department of Mechanical Engineering, published his research article on the performance of carbon nanotube-reinforced NR/EPDM composites in the prestigious SCI-Expanded Journal of Rubber Research (Springer Nature). This achievement reflects the institution's strong commitment to research excellence, innovation, and advanced materials engineering.

Dr. S. Rajiv, Assistant Professor, Department of Mechanical Engineering, published his research article on advanced superhydrophobic PTFE/MWCNT coatings in the prestigious Q1 journal Scientific Reports (Nature Publishing Group). This achievement highlights the institution's commitment to cutting-edge research and innovation in advanced materials and engineering applications.

The Department of Mechanical Engineering proudly celebrated Students Achievement Day, recognizing students for their outstanding accomplishments in academics, research, technical competitions, innovation, sports, and co-curricular activities. The event highlighted the department's commitment to nurturing excellence, innovation, and the holistic development of future engineers.

Ms. P. Dharshana, a II Year B.E. Mechanical Engineering student of E.G.S. Pillay Engineering College (Autonomous), participated in the District-Level Consumer Awareness Competition organized by the District Consumer Protection and Consumer Welfare Office, Nagapattinam. The competition enhanced her understanding of consumer rights, protection laws, and

responsible citizenship while encouraging active civic engagement. Her participation reflects the department's commitment to fostering socially responsible engineers with strong ethical values and awareness beyond academics.

Master of Business Administration

The Department of MBA proudly celebrated the academic excellence of its graduating students during Graduation Day 2026. The event recognized the outstanding achievements of the University Rank Holders—Ms. K. Suashree (First Rank), Ms. B. Safaya (Second Rank), and Mrs. E. Bakkialakshmi (Third Rank)—for their exceptional performance, dedication, and

perseverance throughout the MBA programme. Their remarkable accomplishments reflect the department's commitment to academic excellence and serve as an inspiration to future management professionals.

The Department of Management Studies (MBA), E.G.S. Pillay Engineering College, organized a two-day Industrial Visit to Adani Karaikal Port on 4 and 6 June 2026, providing students with valuable exposure to port operations, logistics management,

supply chain processes, and maritime trade practices. The visit bridged classroom learning with real-world industry experience, enhancing students' understanding of modern business operations and global logistics. The department extends its sincere gratitude to the Adani Port team, the Joint Secretary, Principal, HLC Members, and faculty members for their continuous support in making the visit a successful and enriching learning experience.

The Department of Management Studies (MBA), E.G.S. Pillay Engineering College (Autonomous), organized a webinar on "Artificial Intelligence in Finance Domain" on 08 May 2026 for MBA students. The session, delivered by Ms. Zinneera Amid Maricar, explored the transformative role of AI in finance, covering applications such as algorithmic trading, fraud detection, risk assessment, financial forecasting, and FinTech innovations. The interactive webinar provided valuable insights into emerging technologies, AI-driven financial services, and career opportunities, enriching students' understanding of the future of finance and enhancing their industry readiness.

MBA students of E.G.S. Pillay Engineering College actively participated in the 50th Anniversary Meet of the IEEE Madras Section, gaining valuable exposure to emerging technologies, innovation, leadership, and professional development. The event provided an excellent platform to interact with academicians, industry experts, and researchers, enhancing

students' technical awareness, networking skills, and understanding of interdisciplinary collaboration. This enriching experience strengthened their professional outlook and prepared them for future career opportunities in the dynamic business environment.

The faculty member became a Life Member of the International Institute of Organized Research (I2OR) in January 2026, reaffirming a strong commitment to research excellence, innovation, and academic collaboration. This professional membership provides opportunities to engage in conferences, workshops, faculty development programmes, research publications, and collaborative

initiatives. Recognized under the Ministry of MSME, Government of India (Udyam Registered), the membership supports continuous professional development and strengthens research networking at national and international levels.

Serving as an Editorial Board Member of the International Innovations & Scholarly Trends Journal (IISTJ) reflects a strong commitment to advancing scholarly research and academic excellence. As part of the editorial team, the faculty member contributes to maintaining research quality, publication ethics, and peer-review standards while fostering academic collaboration and global research networking. This prestigious role supports continuous professional development and promotes excellence in research and innovation.

The faculty member participated in the Annual General Meeting (AGM) of the National Institute of Personnel Management (NIPM), Trichy Chapter, on 21 June 2026. The programme brought together HR professionals, industry experts, and academicians to discuss

emerging trends in human resource management, leadership, employee engagement, and organizational development. The event provided valuable opportunities for professional networking and knowledge sharing, enriching the participant's understanding of contemporary HR practices while strengthening academic, research, and student mentoring initiatives.

The Department of Management Studies (MBA), E.G.S. Pillay Engineering College, proudly celebrates the milestone of 101 student research publications, reflecting its unwavering commitment to academic excellence and a strong research culture. Published in reputed national and

international peer-reviewed journals, these research contributions span diverse domains of management and interdisciplinary studies. This achievement highlights the department's focus on fostering innovation, critical thinking, and research-driven learning, empowering students with the analytical and professional skills required for successful careers and higher studies.

The Department of Master of Computer Applications (MCA) successfully organized Innovation Sprint 2026 as part of the Academic Student Summit Conference on 16 April 2026. The event, preceded by a four-day Full-Stack Development Skill-Up Session, equipped participants with hands-on technical expertise before challenging them to develop innovative real-time projects. With 30 students from various UG Arts and Science colleges participating, the

hackathon fostered innovation, teamwork, and problem-solving skills, while recognizing outstanding performers with cash prizes, reinforcing the department's commitment to industry-oriented learning and technical excellence.

Master of Computer Applications

The Department of Master of Computer Applications (MCA) organized an International Webinar on “CRM Fundamentals and Career Opportunities in Salesforce” on 29 April 2026. The session, led by Mr. Hariharan Janakiraman, Founder of Adansys LLC, USA, provided students with valuable insights into CRM concepts, the Salesforce ecosystem, AI-driven CRM solutions, certification pathways, and career

opportunities. The webinar enhanced students' industry knowledge and strengthened their readiness for careers in customer relationship management and cloud technologies.

The Department of Master of Computer Applications (MCA) organized the Global AI Bootcamp 2026 on 30 April 2026, featuring expert sessions by industry professionals from Doodleblue Innovations Pvt. Ltd. The workshop provided hands-on learning in Microsoft Azure, Artificial Intelligence, Responsible AI, Natural Language Processing (NLP), and Large Language Models (LLMs). Through practical demonstrations, including the development of an AI-powered Pizza Ordering Agent, students gained valuable exposure to

cloud technologies, ethical AI, and real-world intelligent applications, enhancing their technical expertise and industry readiness.

The Department of Master of Computer Applications (MCA) organized a Partial Delivery Programme on “Mobile Application Development using Real-Time Projects” on 08 May 2026 for First-Year MCA students. The session provided hands-on exposure to mobile application design, development frameworks, UI creation, and deployment through real-

time projects and case studies. By emphasizing practical learning and industry-oriented development practices, the programme enhanced students' technical skills, problem-solving abilities, and career readiness in mobile application development and emerging technologies.

The Department of Master of Computer Applications (MCA) successfully organized the eight-day SDG Outreach Programme, “EmpowerHer: Empowering Women for a Sustainable Future,” from 10–17 May 2026 across Mayiladuthurai, Nagapattinam, and Thiruvarur. Aligned with the United Nations Sustainable Development Goals (SDGs), the initiative focused on women’s empowerment through digital literacy, health awareness, financial

independence, entrepreneurship, leadership, and environmental sustainability. The programme created a meaningful social impact by promoting community engagement, inclusivity, and sustainable development while empowering participants with knowledge and skills for personal and professional growth.

Twenty-six II MCA students of E.G.S. Pillay Engineering College presented research papers at prestigious National and International Conferences, including the International Conference on Global Advances in Science, Engineering, Technology and Management (ICGASET-2026) and other reputed forums. Their research covered emerging domains such as Artificial Intelligence, Machine Learning, Cloud Computing, Cybersecurity, Healthcare Systems,

Smart Applications, Data Analytics, Web Technologies, and Digital Transformation. This remarkable achievement highlights the department's strong research culture, innovation-driven learning, and commitment to nurturing students with the knowledge, confidence, and technical expertise required for global academic and professional excellence.

The Department of Master of Computer Applications (MCA) conducted an Industry-Integrated Course on Full Stack Web Development from 23 February to 30 June 2026 in collaboration with JM TECH Institute, Poraiyar. Delivered by industry expert Mr. Mohamed Yaseen, the programme provided

comprehensive training in modern web technologies, including HTML, CSS, JavaScript, ReactJS, Node.js, Express, MongoDB, MySQL, Docker, Kubernetes, and cloud deployment. Through hands-on laboratory sessions and real-world projects, students developed practical expertise in designing, developing, and deploying secure, scalable full-stack web applications, significantly enhancing their technical proficiency and industry readiness.

Dr. C. Mallika successfully published the research article titled “Maximizing Pancreatic Carcinoma Classification Performance Using Parrot Optimized Vision Transformer.” The publication highlights her significant contribution to the application of Artificial Intelligence and deep learning in medical image analysis for improved pancreatic cancer classification. This achievement reflects her commitment to research excellence, innovation, and the advancement of intelligent

healthcare technologies, while strengthening the institution's research profile and academic excellence.

NPTEL - National Programme on Technology Enhanced Learning

Ms. K. Rahapriya, Assistant Professor, Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, successfully completed the NPTEL Online Certification course, "Edge Computing," offered by IIT Kanpur through SWAYAM during January–March 2026. She earned the Elite certification with a consolidated score of 67%, demonstrating her commitment to continuous learning and expertise in emerging technologies.

Mrs. S. Akilandeswari, Assistant Professor, Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, successfully completed the NPTEL Online Certification course, "Effective Engineering Teaching in Practice," offered by IIT Madras through SWAYAM during January–February 2026. She earned the Elite certification with a consolidated score of 61%, demonstrating her commitment to continuous professional development and excellence in engineering education.

Dr. J. Amutha, Assistant Professor and Head of the Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, successfully completed the NPTEL Online Certification course "Affective Computing" offered by IIT Delhi through SWAYAM during January–April 2026. She secured the Elite certification with an impressive 82% consolidated score, demonstrating her expertise in emotion-aware computing and her commitment to continuous professional development in emerging AI technologies.

Ms. K. Rahapriya, Assistant Professor, Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, successfully completed the NPTEL Online Certification course "Introduction to Cognitive Psychology" offered by IIT Guwahati through SWAYAM during January–April 2026. She earned the Elite certification with a 70% consolidated score, reflecting her commitment to interdisciplinary learning and enhancing her expertise in cognitive science and human behavior.

Ms. Shajini S, Assistant Professor, Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, successfully completed the NPTEL Online Certification course "Natural Language Processing" offered by IIT Kharagpur through SWAYAM during January–April 2026. She earned the Elite certification with a 62% consolidated score, demonstrating her commitment to strengthening her expertise in Natural Language Processing, Artificial Intelligence, and continuous professional development.

Dr. J. Amutha, Assistant Professor and Head, Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, was recognized as a Top Performing Mentor for the NPTEL Online Certification course "Affective Computing" offered through SWAYAM during January–April 2026. This prestigious recognition reflects her outstanding mentorship, dedication to student success, and commitment to promoting quality learning and academic excellence in emerging Artificial Intelligence technologies.

Dr. M. Priya, Professor, Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, was recognized as a Top Performing Mentor for the NPTEL Online Certification course "Data Analytics with Python" offered through SWAYAM during January–April 2026. This recognition highlights her exceptional mentorship, dedication to student learning, and significant contribution to enhancing academic excellence and skill development in Data Analytics and Artificial Intelligence.

Mrs. S. Akilandeswari, Assistant Professor, Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, was recognized as a Top Performing Mentor for the NPTEL Online Certification course "Human Computer Interaction (in English)" offered through SWAYAM during January–April 2026. This recognition reflects her dedicated mentorship, commitment to student success, and valuable contribution to fostering academic excellence and enhancing learners' knowledge in Human–Computer Interaction.

Ms. R. Divyabharathi, Assistant Professor, Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, was recognized as a Top Performing Mentor for the NPTEL Online Certification course "Social Networks" offered through SWAYAM during January–April 2026. This recognition acknowledges her dedicated mentorship, commitment to student learning, and valuable contribution to promoting academic excellence and enhancing students' understanding of emerging technologies.

The Department of Electronics and Communication Engineering proudly congratulates Dr. M. Malathi, Professor, for successfully completing the NPTEL certification course “Effective Engineering Teaching in Practice” during January–February 2026. She earned an Elite Certification with 71%, demonstrating her commitment to continuous professional development, teaching excellence, and the advancement of engineering education.

The Department of Civil Engineering proudly celebrates the successful completion of various NPTEL certification courses by around 75 students during the academic year. The courses covered key areas such as Surface Water Hydrology, Modern Construction Materials, Smart Cities, Urban Transportation Systems Planning, and Seismic Design of Building Structures. These certifications enhanced students' technical knowledge and industry-relevant skills, reflecting their commitment to continuous learning and academic excellence.

The Department of Electronics and Communication Engineering proudly congratulates Mr. L. Anbazhagan, Assistant Professor, for successfully completing the NPTEL certification course “Edge Computing” during January–March 2026. He earned an Elite Certification with 66%, reflecting his commitment to continuous professional development and expertise in emerging technologies. The Department appreciates his dedication to enhancing teaching excellence and technical knowledge.

Mr. S. Senthilkumar, SPOC of the SWAYAM-NPTEL Local Chapter at EGS Pillay Engineering College, has been awarded a Certificate of Appreciation with an “AA” rating for his instrumental contribution and outstanding performance in NPTEL Online Certification Courses during January–April 2026.

The Department of Information Technology proudly congratulates Abinayaharini R on earning the NPTEL Elite Certification in "Introduction to Indian Psychology," a 12-week SWAYAM course coordinated by IIT Kharagpur. The certification reflects academic excellence, interdisciplinary learning, and a strong commitment to understanding human behavior, cognition, and well-being through the principles of Indian psychology.

Janani Durgap, EGS Pillay Engineering College, has been awarded a Certificate of Appreciation as a “Top Performing Mentor” by NPTEL–SWAYAM for her valuable contribution as a mentor for the NPTEL online certification course “Sensors and Actuators” during January–April 2026.

The Department of Information Technology proudly congratulates Banu C on earning the NPTEL Elite Certification in "Affective Computing" during the January–April 2026 session. The course covered emotion recognition, artificial intelligence, machine learning, and human–computer interaction, reflecting outstanding academic performance and a strong commitment to learning emerging technologies.

Dr. G. Sundara Vadivel, Assistant Professor, Department of Mechanical Engineering, E.G.S. Pillay Engineering College (Autonomous), has been honored with the prestigious NPTEL Discipline Star recognition for the January–April 2026 session. This award acknowledges his outstanding academic performance across multiple NPTEL courses within the Mechanical Engineering discipline. His achievement reflects a strong commitment to lifelong learning, continuous professional development, and academic excellence. It also reinforces the institution's focus on promoting quality education, skill enhancement, and a culture of research and innovation among faculty and students.

The Department of Mechanical Engineering proudly congratulates its faculty members for their achievements in the NPTEL January–April 2026 certification examinations. Dr. G. Sundaravadivel secured a Topper 2% distinction, while Dr. S. Nandhakumar earned Elite Certification in two NPTEL courses. These accomplishments, along with the successful certification of other faculty members, reflect the department's commitment to continuous learning, academic excellence, and professional development.

Mrs. A. Hema successfully completed the NPTEL course on Cloud Computing and Distributed Systems, demonstrating her commitment to continuous learning and professional development. This achievement enhances her expertise in cloud technologies and distributed computing while reflecting the institution's focus on academic excellence, skill enhancement, and emerging technologies.

PLACEMENT ACHIEVEMENT

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, proudly congratulates Ashwinkumar B and Praveen Kumar S (Final Year AI&DS) on securing campus placements at Testware Informatics during the 2025–2026 academic year. Both students were offered positions with an annual package of ₹3 LPA, reflecting their technical competence, dedication, and industry readiness. This achievement reinforces the department's commitment to producing highly skilled and employable graduates.

Placement Day 2026 was celebrated on 18 May 2026 to honour students who secured placements in reputed companies. The event recognised their dedication, perseverance, and career achievements through the

presentation of certificates and mementoes. The programme also highlighted the vital role of the Training and Placement Cell in enhancing employability and industry readiness. The success stories of placed students inspired their peers to pursue academic excellence and prepare confidently for future career opportunities.

All 58 First-Year MCA students of E.G.S. Pillay Engineering College successfully completed the online certification course on Web Application Development using HTML, CSS, and JavaScript. This achievement strengthened their foundational skills in front-end web development, equipping them with practical knowledge in designing responsive and interactive web applications. The certification reflects the department's commitment

to enhancing students' technical competencies, industry readiness, and continuous professional development through skill-based learning initiatives.

Mr. Abdul Jaleel A., II MCA student, successfully completed a Diploma in Graphic Design from Branzone Design School. This accomplishment reflects his commitment to enhancing his creative and technical skills, strengthening his expertise in visual communication and

digital design. The certification further improves his industry readiness and expands his career opportunities in graphic design and multimedia.

Ms. Srivaishnavi M. R., I MCA student, successfully completed the “Introduction to AI for Metaverse” course through Infosys Springboard. This certification enhanced her understanding of Artificial Intelligence, Metaverse technologies, and their real-world applications,

reflecting her commitment to continuous learning and emerging digital innovations.

Department of Physical Education

The Department of Artificial Intelligence and Data Science (AI&DS), E.G.S. Pillay Engineering College, congratulates Thanushsri P (II Year AI&DS), Dharani S, Keerthi S, and Durgadevi S (III Year AI&DS) for their outstanding performance at the Intra College Sports Meet held on 29 April 2026. Demonstrating exceptional teamwork and sportsmanship, the team secured Second Place in Volleyball and Third Place in

both Kabaddi and Basketball, bringing laurels to the department and reaffirming its commitment to excellence in academics and sports.

The Department of Physical Education, E.G.S. Pillay Engineering College (Autonomous), successfully organized the Intramural Tournament 2025–2026 for Women's Basketball on 16 April 2026 at the college Indoor Stadium. The tournament provided a competitive platform for students to showcase their sporting talent, teamwork, and determination. The event concluded with the recognition of

the Runner-up team, reflecting the institution's commitment to promoting sportsmanship, physical fitness, and holistic student development.

Highlights

- Compositionally tuned $\text{Cu}_2\text{SnSe}_x\text{S}_{1-x}$ quantum dots synthesized.
- Bandgap engineered from 1.80 to 1.35 eV via Se/S alloying.
- Systematic redshift confirms controllable electronic structure.
- Carrier lifetimes increase with selenium incorporation.
- Alloying modulates phonon-driven carrier cooling dynamics.

Abstract

Copper-based multinary chalcogenide quantum dot (QD) has presented impressive prospects as alternative materials for cadmium- and lead-free novel optoelectronic and photonic devices. Here, the optoelectronic characteristics of $\text{Cu}_2\text{SnSe}_x\text{S}_{1-x}$ chalcogenide quantum dots are systematically tailored by exploiting deliberate anion composition tuning. Colloidal QDs were prepared by a hot-injection method that allowed to control the Se-to-S ratio with high phase purity and excellent crystallinity. Structural characterizations of X-ray diffraction and transmission electron microscopy reveal that nanoscale wurtzite-phase nanocrystals with a narrow size

Dr. Edward Anand E, along with co-authors Dr. T. Josephine Arokia Mary and Dr. M. Irshad Ahamed, has published the research article “Optoelectronic Property Engineering of $\text{Cu}_2\text{SnSe}_x\text{S}_{1-x}$ Chalcogenide Quantum Dots for Next-Generation Photonic Devices” in the prestigious Physics B: Condensed Matter (Elsevier) journal. The research demonstrates tunable optoelectronic properties of environmentally friendly chalcogenide quantum dots, highlighting their potential applications in photonic devices, solar energy conversion, LEDs, photodetectors, and next-generation optoelectronic systems.

Newsletter coordinator Team

The Editorial Team is delighted to present this edition of our institutional newsletter, bringing together the achievements, activities, innovations, and memorable moments of our vibrant academic community. We sincerely thank the leadership, faculty, staff, students, and contributors whose support and participation make every edition meaningful and inspiring.
