For those students who have passed the courses (all theory and EEC courses except laboratory courses / Project Work), the relative grading shall be adopted, subject to the strength of students who have met the passing requirements is greater than 30.

The marks of only those students who have the minimum required marks (as per Clause 11) from both continuous assessment and ESE, shall be the inputs in the software developed for relative grading. The evolved relative grading method normalizes the results data using the BOX-COX transformation method and computes the grade range for each course separately and awards the grade to each student.

Absolute Grading

In all the courses, for those students who have the minimum required marks from both continuous assessment and ESE, if their strength is less than or equal to 30 then the absolute grading shall be followed with the grade range as specified in the Table.

For the Laboratory courses, Project Work, the absolute grading procedure shall be followed as given in the Table irrespective of the class strength. For the MCA students admitted under non-computer-science background category, the grades obtained for the prescribed bridge courses will appear on the grade sheet, but will not be considered for GPA/CGPA calculation. For the students who complete the Audit Course satisfying attendance requirement, the title of the Audit Course will be mentioned in the Grade Sheet. If the attendance requirement is not satisfied, it will not be shown in the Grade Sheet.

Grade range for absolute grading

O	**A+**	**A**	**B+**	**B**	**C**	**U**
91 - 100	81 - 90	71 – 80	61 – 70	56 - 60	50 – 55	< 50

The grades O, A+, A, B+, B obtained for the one credit course shall figure in the Mark sheet under the title **"Value Added Courses"**. The other grades U, SA **will not figure in the mark sheet.**

GPA AND CGPA CALCULATION

The Course Instructor shall handover the foil sheet, assessment sheet and attendance sheet to the HOD concerned for onward transmission to the ACOE, UD for processing of results. After results are declared, Grade Sheets will be issued to each student which will contain the following details:

- the list of courses registered during the semester and the grades scored.
- the Grade Point Average (GPA) for the semester and
- the Cumulative Grade Point Average (CGPA) of all courses registeredfrom first semester onwards.

During each semester, the list of courses registered and the grades scored in each course are used to compute the Grade Point Average (GPA). GPA is the ratio of the sum of the products of the number of credits of courses registered and the grade points corresponding to the grades scored in those courses, taken for all the courses, to the sum of the number of credits of all the courses in the semester

$$\text{GPA / CGPA} = \frac{\sum_{i=1}^{n} C_i \, GP_i}{\sum_{i=1}^{n} C_i}$$

where

Ci is the number of credits assigned to the course

GPi is the Grade point corresponding to the grade obtained for each Course

n is number of all Courses successfully cleared during the particular semester in the case of GPA and during all the semesters in the case of CGPA.

In the consolidated grade sheet the CGPA earned shall be converted into percentage of marks as follows:

Percentage of Marks = CGPA X 10.

A student who is absent from appearing for an End Semester examination in a course, after registering for the same, shall be deemed to have appeared for that examination for the purpose of classification.

Revaluation: The student can register for the revaluation through proper application to the Controller of Examinations. The Controller of Examinations shall arrange for the revaluation and declare the results. Revaluation is not permitted to the courses other than theory courses.
